## Button Shape

Buttons can be cut square or round.

- ☐ Square with rounded corners.

Square buttons will be cut to size of button, or as near as possible while maintaining structural integrity.

- ☐ Round, specify size below.
- ☐ 1cm
- ☐ 1.5cm
- ☐ 2cm
- ☐ 2.5cm

## Screenshots and photos

To be able to cut your keyguard to the highest quality we require images to ensure we are matching the button cuts correct.

Please provide photos of device with vocab and layout required.

Please also provide screenshots of the vocab taken from the device to know correct sizing and spacing.

### How to take a screenshot on an iPad

Quickly press and release the top button and either volume button simultaneously. A thumbnail screenshot will appear temporarily for you to save or share.

### How to fill this form electronically

Open this form using Adobe. Under All Tools, select Fill & Sign. Use the Fill in fields and add checkmark tools to complete the form. Save.
